

## We are here for you

### IT'S ALL ABOUT CUSTOMER SERVICE...

We opened our small business in 2000, after having one-too-many bad experiences with commercial photography services. We started with one SLR Canon, a head photographer and an assistant.

We have grown and expanded by leaps and bounds over the last nine years. We now have two lead photographers and two assistants. In 2004 we went all-digital and haven't looked back.

Although we have grown drastically over the last nine years, one thing has remained the same – *our commitment to making your wedding day as special as possible.*

One week prior to your wedding, we will meet with you personally to discuss every detail of your special day. Why? Because we want to know exactly what kinds of photos you want. We will discuss details, down to where you want us positioned during your ceremony.

## ***Details, details, details***

Paying attention to detail is our business. As a new bride you know just how much time and effort is put into the smallest details of your event-*from the roses you left in your mom's seat to the personal notes left at table settings at your reception*, many of which you never get the chance to see.

We capture these wonderful details and give it to you on a DVD for you.
